

# WELCOME TO THE SIOPSA & IGNITION YOUTH PROGRAMME MAY TO JUNE 2020

Empowering matric learners from Alexandria in their journey towards tertiary learning and sustainable employment.

SIOPSA invites all [intern psychologists](#) to join this CPD accredited career counselling programme focussed on the unique challenges from a community psychology perspective. Apart from gaining career counselling experience, you will receive close supervision and guidance from registered psychologists in the Johannesburg area.

SIOPSA has partnered with Ignition, a programme to empower young adults in Alexandra. The focus of the wide matrix of support is to enable each matric learner to go and study at a tertiary level or complete technical training, with the goal of finding sustainable employment.

SIOPSA is proud of the quality relationship with Ignition Leadership and students that was built over the past year. Students that are part of the programme received mentoring, some on a one-on-one basis, and attended running workshops provided to them by the SIOPSA members.

SIOPSA would like to secure the sustainability of the project and therefore maximise the potential impact over the long-term to more learners.
